ABOUT US

Diakon Coir is a five-year-old Goa-based enterprise, primarily engaged in the manufacturing of natural, organic, and eco-friendly products made from coconut.

'Diakon' means **'MESSENGER'** in Greek.
We are thus fulfilling nature's message of
"Sustainably Yours"
by choosing the green way.

Born from the soil...
– Returning home...

GARDEN SUPPLEMENTS

An excellent soil conditioner with favourable water-retaining properties, **Cocopeat** is an integral part of every gardening and landscaping related activity. It's air-filled porosity makes it lightweight and it's high-water holding capacity makes it an ideal growing medium for the plants.

The above mentioned product is available in 1 KG, 10 KG and 25 KG.

GARDEN ARTICLES

Ideal for **D-I-Y** home and kitchen gardening, pots made from coir are **sustainable** and eco-friendly **alternatives** to plastics.

Providing a naturally ideal **ventilation** for the roots, these coir pots add to the overall **aesthetics** of the room, while simultaneously assisting in plant growth.

OUR STORY

What germinated as a passion five years ago, has today progressed into one of **Goa's ONLY** coir manufacturing unit.

Sowing the seeds of financial independence, we empowered women from single-income families to learn and earn, especially during the tough pandemic times.

Nurturing a sense of accountability, and cultivating the mindset of giving back to the community, every year, we have been inspired to make a new addition to our diverse catalogue.

Being environmentally responsible lies at the core of all our actions and thus, we aim to make the most and return to mother nature as much as we have received.
